

## **Business Plan for Fresh 24**

### **Executive Summary**

Fresh 24 is a start-up agricultural sourcing, procurement, distribution, and international trading company established to create a vertically integrated supply chain connecting growers directly with institutional buyers throughout the United States, the Caribbean, and Latin America. As the first operating company within the MAJESTIC P.L.T. ecosystem, Fresh 24 eliminates unnecessary intermediaries while providing premium fresh produce, flowers, specialty agricultural products, seafood, meats, and value-added food products through a technology-enabled procurement platform.

The Company's primary customers include:

- Cruise lines
- Hotels and resorts
- Restaurant chains
- Food distributors
- Government agencies
- Institutional food service providers
- Retail grocery chains
- Wholesale distributors
- 

Fresh 24 will initially leverage existing relationships developed through B&L International [TH1.1] and affiliated organizations to establish recurring contracts while expanding throughout the Eastern United States, Caribbean and Latin America before entering additional international markets. The Company's direct sourcing model allows it to provide superior quality, lower pricing, dependable logistics and year-round availability.

During the first three years, Fresh 24's objectives are to:

- Build a network of qualified growers throughout North and South America.
- Secure long-term purchasing agreements with institutional buyers.
- Develop regional distribution hubs.
- Increase recurring revenue through annual supply contracts.
- Prepare for integration with Majestic Air Cargo and the PLICE technology platform.
- 

### **Company Summary**

Fresh 24 is a global procurement and agricultural supply company specializing in direct sourcing and distribution of premium agricultural products.

Unlike traditional wholesalers, Fresh 24 manages the supply chain from farm to customer through strategic partnerships, quality control programs, logistics management and technology-driven procurement.

Primary products include:

- Fresh fruits
- Vegetables
- Herbs
- Flowers
- Seafood
- Meat products
- Specialty foods
- Organic products
- Value-added agricultural products
- Specialty Items

The company will initially utilize existing logistics partners before gradually integrating proprietary logistics capabilities through Majestic Air Cargo as future growth warrants. This staged approach minimizes start-up costs while allowing rapid market entry.

### **Mission**

Fresh 24's mission is to connect growers directly with institutional buyers through an efficient, technology-driven procurement and logistics network that delivers premium products, competitive pricing, dependable service, and sustainable economic growth for producers, customers, and communities.

### **Objectives**

#### ***Year One***

- Launch commercial operations.
- Develop a qualified supplier network.
- Secure strategic distribution partnerships.
- Acquire anchor institutional clients.
- Build recurring monthly revenue.
- Implement standardized quality assurance procedures.

#### ***Year Two***

- Expand throughout the Caribbean.
- Increase customer retention through annual contracts.
- Add additional product categories.
- Develop private label opportunities.
- Expand supplier relationships.

### ***Year Three***

- Expand throughout Latin America.
- Integrate additional technology solutions.
- Increase export operations.
- Prepare for Majestic Air Cargo integration.
- Increase recurring contract revenue.

### **Keys to Success**

Fresh 24's long-term success depends upon:

- Direct relationships with growers.
- Long-term supply agreements.
- Competitive pricing.
- Consistent product quality.
- Reliable logistics.
- Technology-enabled procurement.
- Diversified sourcing across multiple countries.
- Experienced executive leadership.
- Environmental, Social and Governance (ESG) and sustainable sourcing initiatives.
- Strong institutional customer relationships.

### **Management & Owner Summary**

Fresh 24 benefits from an experienced management team with expertise in:

- International logistics

- Food distribution
- Agricultural production
- Aviation
- Global trade
- Supply chain management
- Technology development

The leadership team collectively possesses decades of executive experience across aviation, logistics, international commerce, agricultural exports and institutional distribution. The organization has been structured with dedicated executive leadership and functional managers covering supply chain operations, commercial sales, logistics, finance, technology, compliance and customer service.

Management's experience significantly reduces execution risk while providing immediate access to existing customer relationships throughout the United States and Caribbean.

### **Marketing Strategy**

Fresh 24 will utilize a business-to-business marketing strategy focused on institutional buyers rather than retail consumers.

Primary marketing initiatives include:

- Strategic Relationship Marketing
- Cruise line procurement departments
- Hotel purchasing organizations
- National food distributors
- Government food procurement agencies
- Restaurant purchasing groups
- Digital Marketing
- Professional corporate website

- Search Engine Optimization
- LinkedIn marketing
- Industry newsletters
- Email marketing campaigns
- Educational webinars
- Trade Shows

Participation in:

- Produce industry conferences
- Hospitality trade shows
- Cruise industry conferences
- Food service expos
- Caribbean trade missions
- Supplier Marketing
- Fresh 24 will recruit growers by emphasizing:
- Guaranteed demand
- Fair pricing
- Long-term contracts
- Export opportunities
- Technology integration
- Brand Positioning
- Fresh 24 will be positioned as:
- "Your Direct Global Agricultural Supply Partner."

## **Sales Strategy**

Sales will emphasize recurring institutional contracts instead of transactional sales.

- Target Markets
- Primary
- Cruise Lines
- Hotels
- Resorts
- Food distributors
- Secondary
- Grocery chains
- Government contracts
- Restaurant groups
- Wholesale distributors

## **Sales Process**

- Prospect qualification
- Procurement analysis
- Product demonstration
- Supply proposal
- Pricing agreement
- Annual purchasing contract
- Ongoing account management

Each account will have a dedicated relationship manager responsible for customer satisfaction and expanding annual purchases.

The Company expects over 80% of revenue to originate from recurring institutional contracts.

### **Growth Strategy**

Fresh 24 will expand through three strategic phases.

#### ***Phase I***

- Regional Operations
- Eastern United States
- Florida
- Mid-Atlantic
- Caribbean
- Focus:
- Supplier development
- Customer acquisition
- Distribution partnerships

#### ***Phase II***

- International Expansion
- Expansion into:
- Colombia
- Mexico
- Central America
- South America
- Focus:
- Export growth
- Additional supplier partnerships

- New product categories

### ***Phase III***

- Vertical Integration
- Future integration with:
- Majestic Air Cargo
- PLICE technology platform
- AI-driven procurement
- Predictive inventory management
- This integration will provide:
- Lower logistics costs
- Improved delivery times
- Greater inventory visibility
- Enhanced customer service
- Increased operating margins

### **Competitive Advantage**

Fresh 24 possesses several competitive advantages over traditional food distributors.

- Direct Farm Relationships
  - ✓ Lower acquisition costs by purchasing directly from producers.
  - ✓ Diversified Supply Base
  - ✓ Multiple sourcing countries reduce weather, geopolitical and seasonal risk.
  - ✓ Institutional Focus
  - ✓ Emphasis on recurring B2B contracts creates predictable revenue.
- Technology Integration
  - ✓ Future PLICE integration will automate forecasting, procurement and logistics planning.
- Experienced Leadership

- ✓ Management experience in aviation, logistics, food distribution and international trade provides immediate operational expertise.
- Existing Industry Relationships
  - ✓ Access to established networks within hospitality, cruise, logistics and international distribution significantly shortens the sales cycle.

### **Scalability**

The business model can expand internationally without significant infrastructure investment during its early stages by leveraging strategic logistics partners.

### **Opportunities**

Fresh 24 is positioned to capitalize on several significant market opportunities.

- Growing Demand for Reliable Supply Chains
  - ✓ Institutional buyers increasingly seek dependable suppliers capable of ensuring year-round availability.
- Nearshoring
  - ✓ Regional sourcing throughout the Americas reduces transit times while lowering geopolitical risks.
- Cruise Industry Expansion
  - ✓ Growing Caribbean cruise traffic creates increasing demand for premium food products.
- Hospitality Growth
  - ✓ Hotels and resorts continue expanding throughout the Caribbean and Latin America.
- Sustainable Agriculture
  - ✓ Consumers and institutional buyers increasingly value sustainable sourcing and direct farm relationships.
- Export Growth
  - ✓ Demand for premium U.S. and Latin American agricultural products continues expanding internationally.

**Future Vertical Integration**

The planned addition of Majestic Air Cargo and PLICE creates opportunities to improve logistics efficiency, reduce costs, and strengthen customer retention while expanding service offerings.

**Conclusion**

Fresh 24 is positioned to become a leading international agricultural sourcing and procurement company by combining experienced leadership, direct grower relationships, institutional customer partnerships, and scalable technology. As the first operational company within the broader MAJESTIC P.L.T. ecosystem, Fresh 24 establishes the commercial foundation for future logistics and technology integration while generating recurring revenue through long-term supply contracts.

Its business model emphasizes sustainable sourcing, operational efficiency, and recurring institutional relationships rather than transactional sales, providing a stable platform for long-term growth. By leveraging existing industry relationships, implementing disciplined supply chain management, and expanding strategically throughout the Americas and Caribbean, Fresh 24 expects to achieve significant growth in sales, client acquisition, and market presence while creating lasting value for suppliers, customers, investors, and the communities it serves.

**Financial**

Fresh 24 will incorporate as a C Corporation for United States federal income tax purposes.

The Company will obtain financing in the form of equity and debt funding in the amount of \$24,000,000. The funds will be used to purchase property and equipment, inventory, and other assets, as well as to cover operational expenses during start-up and working capital needs. The Company estimates a six-month start-up period prior to revenue generation.

| Start-Up Assets                                 | Month 1       | Month 2       | Month 3         | Month 4         | Month 5         | Month 6         | Total            |

## Founders and Management team

### ***Captain Craig Baptiste.***

Captain Craig Baptiste brings unparalleled expertise in global air carrier operations, backed by over 23,000 flight hours across a wide spectrum of commercial aircraft including Boeing B737, B757, B767, B777, B787 and Airbus A330, A321, A319. A graduate of both Embry-Riddle Aeronautical University and the U.S. Air Force Academy, his career reflects a deep commitment to operational excellence, safety, and strategic aviation logistics. His leadership in high-stakes environments and mastery of complex air systems positions him as a cornerstone of the MAJESTIC P.L.T. initiative, ensuring that the logistics and aeronautical components of the program are executed with precision, resilience, and global scalability.

### ***Lt. Col.® Mauricio Zuleta***

Lt. Col.® Mauricio Zuleta brings a rare blend of operational aviation expertise, advanced research leadership, and entrepreneurial acumen to the MAJESTIC P.L.T. initiative. With over 7,300 flight hours across both fixed and rotary wing aircraft, his aeronautical command is matched by his strategic roles as Director of Science & Technology for the Colombian Air Force (COLAF) and Director of Advanced R&D Programs for the Colombian Ministry of Defense. His background as an I.M.A. Aeronautical Administrator and his experience as an export flower grower reflect a unique ability to bridge high-tech systems with real-world supply chain dynamics. Mauricio's multidisciplinary insight ensures MAJESTIC P.L.T. is not only technically sound but also globally adaptive, capable of innovating across logistics, production, and technology with precision and purpose.

### ***Frank Scannavino***

Frank Scannavino is a seasoned business executive, Certified SBA Loan Consultant, former CPA, and entrepreneur with more than 40 years of experience in accounting, finance, business ownership, consulting, and funding. He holds a BS in Accounting and an MBA in Accounting and Taxation, worked in public accounting and corporate finance, and founded Clinton Machine & Supply, growing it from \$6,000 in start-up capital to over \$15 million in assets and \$32 million in annual sales before selling the company in 1996. Over the past 30 years, Mr. Scannavino has helped numerous companies grow, expand, and secure financing, supported by strong relationships with lenders, funding facilitators, and business contacts. He currently owns International Marketing Group LLC (IMG), a debt and equity funding packaging and processing company with experienced packaging personnel, business plan writers, and lending leadership.

**Mr. Bill Foley**

Mr. Bill Foley serves as President and Chief Operating Officer of Cheney Brothers, one of the largest foodservice distributors in the United States. With decades of experience leading high-volume operations, Bill brings unmatched expertise in supply chain optimization, procurement strategy, and enterprise logistics. His leadership has driven Cheney Brothers' expansion into new markets, streamlined distribution networks, and enhanced service reliability across thousands of SKUs. As a strategic advisor to MAJESTIC P.L.T., Bill's operational insight and industry relationships provide a critical foundation for scaling the program's production and logistics pillars with precision, efficiency, and commercial viability.

**Mr. George Hazy**

Mr. George Hazy brings elite executive experience to MAJESTIC P.L.T., having served as CEO of Executive Air/American Eagle and as the former Chief Operating Officer of American Airlines. His leadership has shaped some of the most complex and high-performing aviation networks in the world, overseeing large-scale operations, regulatory strategy, and international expansion. With a proven track record in scaling logistics infrastructure and navigating global aviation markets, George's strategic oversight ensures MAJESTIC P.L.T. is built on a foundation of operational excellence, risk mitigation, and long-term scalability. His presence signals institutional credibility and positions the program for high-level partnerships and global reach.

**Mr. Ralph Ledee**

Ralph Ledee is a Caribbean business leader and aviation entrepreneur with a legacy rooted in distribution, real estate, and travel retail. As principal of ILTT and founder of Rum Jumbie, he transformed a family-run liquor store into a \$60M regional powerhouse, representing world-class brands across the Caribbean. With holdings spanning spirits, food, fuel, and hospitality, Ralph continues to drive dynamic ventures and philanthropic initiatives, building on a family legacy that dates back to 18th-century St. Barthélemy.

**Tiffany Hill, Esq.**

Tiffany is the founder and managing attorney of TH Legal Consulting LLC, where she serves as a strategic advisor to businesses on corporate governance, regulatory compliance, commercial transactions and intellectual property strategy. As General Counsel of Majestic PLT, her decades of legal and business advisory experience enable her to partner with executive leadership in developing legal infrastructures that protect enterprise value, support scalable growth and mitigate operational risk. Her practice encompasses complex contract negotiations, multi-jurisdictional business operations, federal litigation and alternative dispute resolution.

**Mr. Robert Asprilla**

A community strategist and international marketing expert, Robert bridges grassroots engagement with global impact. As CEO of Global Passport Academy and co-founder of the Afro Interamerican Forum on Climate Change (with MIT), he champions sustainability, education, and inclusive development through cross-sector partnerships.

**Captain Jonathan Earl Baptiste**

A second-generation aviation and business leader, Jonathan is an airline captain with American Airlines and holds degrees in aeronautics and communications. Fluent in English and Spanish, he blends global business experience with creative strategy, continuing the Baptiste legacy across aviation, real estate, and international markets.

**Mr. Noah Ledee**

executive active in the  
distribution

Riddle with a degree in economics, he leads development projects in St. Maarten and St. Barths, and has expanded into aviation charter services and a U.S.-based organic food and beverage startup launching in 2025.

Noah is a commercial pilot and senior family's Caribbean real estate and businesses. A graduate of Embry-
